

PERSISTENT

Partners in Innovation

Franchisee Management Suite

Google Maps API

Need a dynamic map for a new location? Want directions now?

Instead of using Google, Appian makes it easier for you.

Bulk File Uploader

Having many files to upload? With one quick step and you can upload entire documents into Appian.

USPS Address Verification

Double check the provided address for receiving postage, with

one easy click.

Persistent System's Franchisee Management Suite (FSS) unites and manages all the comprehensive data for Franchising Businesses. This includes: Franchisee, Contacts, Agreements, Stores, and Projects.

This solutions not only creates one unified interface for all encompassing data, it also enables business users to manage all aspects of the company infrastructure from one platform. Let our solution do the heavy lifting, so you can focus on growing your brand.

Comprehensive Solution, leveraging the Appian Platform, which makes handling Franchisees a breeze.

Google Places API

Inclusive Comparison of local Competitor stores within the local area of your selected location. Comparing your status to their status.

Yelp Integration

Track and monitor your reviews from Yelp directly in the Appian platform.

DocuSign

Need to send a document out for signature? Don't have time to mail it? Want it done faster, with little to no effort?
