

Torres Zepeda Erick David

MANAGE USERS AND GROUPS

Habla sobre el manejo de los usuarios y grupos, de la importancia que tiene definirlos como parte de la seguridad tanto de la aplicación como de la información realmente, ya que dependiendo de a que carpetas, objetos o aplicaciones se le asignen los diferentes permisos como de administrador, editor, espectador, etc. A los usuarios o grupos que se puedan crear.

EXPRESSIONS: TRANSFORM YOUR DATA

Este curso explica un poco sobre los inicios de la creación de objetos, constantes, carpetas y cómo brindarles seguridad, así mismo enseña conceptos como las variables, constantes, arreglos y funciones que son de vital importancia para el desarrollo, las clasificaciones de los tipos de datos son por ejemplo la de visión general, cualquier tipo, tipo de mapa, un tipo de dato personalizado es un objeto que contiene campos definidos por el usuario, un CDT se utiliza para agrupar datos relacionados.

Ejercicio 3

The top screenshot shows the 'Acme Exercise' application object browser in Appian Designer. It displays a list of application objects with columns for Name, Description, and Last Modified. The objects include folders like 'AX Documents', 'AX Interfaces', 'AX Expressions', 'AX Constants', and 'AX Knowledge Center', as well as test objects like 'Test', 'Test 1', and 'Test 2'. A 'Contains all constants, expression rules, and interfaces used in th...' entry is also visible.

| Name | Description | Last Modified |
|---------------------|------------------------------------------------------------------------|-----------------------------------------|
| AX Documents | Test | 7/27/2022 3:14 AM by Erick David Torres |
| AX Interfaces | Sub-Folder 3 | 7/27/2022 3:06 AM by Erick David Torres |
| AX Expressions | Sub-folder 2 | 7/27/2022 3:05 AM by Erick David Torres |
| AX Constants | Sub-Folder 1 | 7/27/2022 3:04 AM by Erick David Torres |
| AX Knowledge Center | Test 2 | 7/27/2022 2:51 AM by Erick David Torres |
| AX Process Models | Test 1 | 7/27/2022 2:50 AM by Erick David Torres |

The bottom screenshot shows the 'Application Security' dialog box in Appian Designer. It displays a table of users and groups with their assigned permission levels. The 'Acme Exercise' application is selected. The table shows 'Default (All Other Users)' with 'No Access', 'AX Administrators' with 'Administrator', and 'AX All Users' with 'Viewer'. There are 'CANCEL' and 'SAVE CHANGES' buttons at the bottom.

| User or Group | Permission Level |
|---------------------------|------------------|
| Default (All Other Users) | No Access |
| AX Administrators | Administrator |
| AX All Users | Viewer |
