

### Pasos de creación de la primera Aplicación.

Para crear una primera aplicación se debe de acceder a Appian Designer en donde podremos crear una aplicación de 0.

En la opción de New Application, podemos empezar:

#### Creación de la aplicación

## Create New Application

**Name\***  **Prefix ?**

**Description**  
Appian"/>

Generate groups and folders to secure and organize objects

#### Seguridad de la aplicación

## Review Application Security

 **Tip:** Basic users must have at least viewer rights to view a published application's feeds and actions at runtime. [Learn more](#)

**Name**  
 Acme Exercise

 1 warning detected [Show More](#)

User or Group	Permission Level
Default (All Other Users)	No Access

[+ Add Users or Groups](#)

### Creación de un Parent Folder

Dentro de la aplicación usando los tipos de objetos, seleccionar los folders

- OBJECT TYPE
- Connected System
  - Constant
  - Data Store
  - Data Type
  - Decision
  - Document
  - Expression Rule
  - Feed
  - Folder
  - Group
  - Integration
  - Interface
  - Process Model
  - Query Rule
  - Record Type
  - Report
  - Site
  - Web API

Y luego crear las carpetas padres:

### Creación del folder

## Create Folder

#### Type

- Rule Folder
- Process Model Folder
- Document Folder
- Knowledge Center

#### Folder Name\*

#### Folder Description

#### Parent Folder

### Creación de Sub-Folder:

Para ello es sencillo, se creará una carpeta como tal y simplemente en la parte inferior se agregará la carpeta principal

# Create Folder

## Type

- Rule Folder
- Process Model Folder
- Document Folder
- Knowledge Center

## Folder Name \*

## Folder Description

## Parent Folder \*

 P Knowledge Center ✕

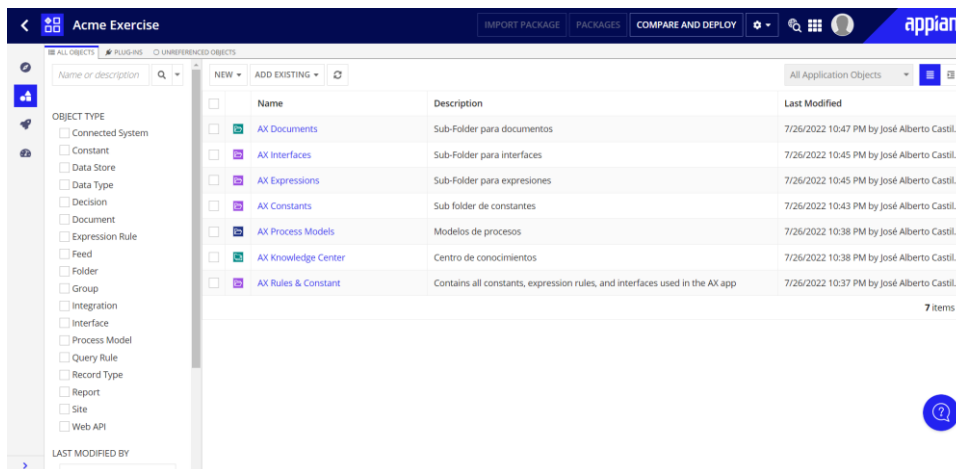

CANCEL

CREATE

Finalmente agregar el nombre, tener en cuenta que hereda de Knowledge Center

## Finalización de los documentos

The screenshot shows the Appian console interface for the 'Acme Exercise' application. The left sidebar displays a list of object types, with 'Document' selected. The main area shows a table of application objects:

Name	Description	Last Modified
AX Documents	Sub-Folder para documentos	7/26/2022 10:47 PM by José Alberto Castil...
AX Interfaces	Sub-Folder para interfaces	7/26/2022 10:45 PM by José Alberto Castil...
AX Expressions	Sub-Folder para expresiones	7/26/2022 10:45 PM by José Alberto Castil...
AX Constants	Sub folder de constantes	7/26/2022 10:43 PM by José Alberto Castil...
AX Process Models	Modelos de procesos	7/26/2022 10:38 PM by José Alberto Castil...
AX Knowledge Center	Centro de conocimientos	7/26/2022 10:38 PM by José Alberto Castil...
AX Rules & Constant	Contains all constants, expression rules, and interfaces used in the AX app	7/26/2022 10:37 PM by José Alberto Castil...

The 'AX Knowledge Center' folder is highlighted in blue, indicating it is the selected parent folder for the new document folder.
